5 – Fire Fighting Measures

Flash Point: None

Flammable Limits: Not applicable

Extinguishing Media: Flood with water. Do not use dry chemicals, carbon dioxide or halogenated extinguishing agents.

Unusual Fire or Explosion Hazards: Heating Bleach Tablets above 464°F will generate noxious gases. To minimize the generation of these gases, flood with a large quantity of water. Bleach Tablets are strong oxidizers and may react with flammable or combustible materials to cause a fire or explosion.

6 – Accidental Release Measures

Bleach Tablets spilled from a single retail package should be carefully collected and flushed down the drain with plenty of water. Do not generate airborne dust. If a damp cloth or paper towel is used to collect material, rinse it thoroughly with a large amount of water before reuse or disposal.
