

Illustration 1

Read all instructions and review illustrations before installing.

Tools required for assembly:
Cordless screwdriver
Phillips driver

This assembly includes:
(1) Table top
(4) Leg
(16) Screw

⚠ WARNING

Wood products are heavier than they appear and may be hard to control when moving. Use two or more people when moving wood products or severe personal injury may result.

Heavy panels can pinch or crush fingers. Do not place fingers between or under panels during assembly.

Installation (refer to Illustration 1):

1. Lay table top, bottom side up, onto cardboard or a carpeted surface. This is to prevent damage to top finish.
2. Locate round cut-outs at each corner of table top.
3. Position a leg mounting plate (attached to end of leg) into a round cut-out and align holes in leg mounting plate with pre-drilled holes inside cut-out.
Repeat this procedure for remaining legs and cut-outs.
4. Use the cordless screwdriver with Phillips driver to install four screws (from hardware pack) through each leg mounting plate and into table top. Take care to fully tighten, but not over tighten, screws.
5. Set table upright and position table where it will be used.
