Pacon Corporation

Classroom Activity: Let each of your students be their own santa to someone else. Have each student pick another student's name and that's who they are a "secret santa" to. Each student creates their own Christmas stocking for their "secret santa" to place things in. The week before Christmas your students will have fun getting little gifts and candies from their "secret santa" and trying to guess who it is.

Instructions:

1. With a black marker draw a Christmas stocking and cut out two sides.
2. Run a strip of glue on the stocking leaving only the top open. Place the other half of the stocking on top. Let dry.
3. Cut out a piece from Glitz and Glimmer felt and glue at the top of your stocking.
4. Decorate your stocking using jingle bells, yarn and glitter.
5. Cut a thin, short strip of felt and glue in the inside of your stocking leaving only the top hanging out. This will be the hook that you can hang your stocking from.
