Five Card Sum

Here's a fun card game to play with TREND's math flash cards. Deal each player five flash cards. Each player works their equations, then adds up all the answers. The player with the highest sum wins!

Fraction Line

Have children arrange fraction cards in a line, from smallest (twelfths) to largest (wholes). Have them turn their backs, then remove one card and close up the space. The winner knows which fraction card is missing!
