Extension cord splitter allows two devices with NEMA 5-15P plugs to share one AC power input cord and one NEMA 5-15R outlet.

Features

Y-Style Power Cord Splitter Connects 2 Devices with 5-15P Plugs to One AC Outlet This extension cable splitter allows two devices with NEMA 5-15P plugs to share one AC input cord and one NEMA 5-15R outlet. The AC power splitter features a 5-15P plug for connecting to an AC power source and two 5-15R ends for connecting to devices' power cords. By connecting two devices to one outlet, the 1-ft. (0.31 m) splitter frees up space in a PDU or surge protector and allows welcome flexibility in placing equipment with respect to the power outlet.
