

Black USB Powered Laptop Cooler

StarTech ID: NBCOOLER

This simple notebook cooler can help to keep your laptop running at peak performance! The internal heat generated by laptop components can weaken system performance and cause instability. By keeping the laptop cooler, you can help to ensure that your notebook endures the performance you demand.

Designed to work with any laptop computer size, the cooler features four 60mm fans that pull heat away from the base of the laptop, extracting the hot air for better circulation and dissipation within the computer casing.

NBCOOLER features variable speed settings that let you adjust the fan speeds to suit the amount of heat coming from the laptop, up to a maximum airflow rating of 40 CFM.

Applications

- Provide increased cooling to a laptop/netbook over the built in fans
- Travelers who need the extra cooling while on the road and do not always have access to an electrical outlet
- Keep a laptop with upgraded hardware running cooler
- Provide a stable base while using the laptop on an unstable surface like a lap or bed

Features

- Portable, lightweight plastic design
- Four 60mm cooling fans with variable speed control
- Powered directly from USB; no external power required
- Fits virtually any size laptop/netbook

Technical Specifications

Warranty	2 Years
Fan Dimensions	60 x 60 x 18mm 2.36 x 2.36 x 0.71in
Fan Bearing Type	Sleeve Bearing
Fan RPM	1900-2600 RPM
Air Flow Rate	40 CFM
Noise Level	<24 dBA
Color	Black
Enclosure Type	Plastic
Product Length	12.8 in [325 mm]
Product Width	10.4 in [264 mm]
Product Height	1 in [25 mm]
Product Weight	22.9 oz [650 g]
Input Voltage	5 DC
Input Current	800mA
Plug Type	M
Shipping (Package) Weight	2.5 lb [1.1 kg]
Included in Package	1 - Notebook cooler
Included in Package	1 - USB to DC Power Cable
