

Strobe™ 500

Desktop Functionality and Reliability in a Mobile Scanner

- Metal construction for maximum durability in hectic work spaces
- Supports duplex scanning of plastic cards and long documents
- Create searchable PDF files making it easy to find scanned documents
- Visioneer® Acuity® Image processing and enhancing software
- Wall or USB Powered. Flexibility for when you need it
- Communicates with popular applications through TWAIN™ driver
- Hinged lid design for easy cleaning and maintenance

Robust Scanning with a Mobile Footprint

The Visioneer® Strobe™ 500 is a high-quality, USB powered mobile scanner with a small footprint and front feeding. But that's where the similarity to traditional mobile devices ends. Most mobile scanners are not designed for heavy use or in disciplines where image quality is paramount. The Strobe 500 has the durability and features usually only found on a desktop scanner, with all the portability and space savings of a mobile scanner. Its robust duty cycle of 500 pages a day ensures that it can handle volumes of documents well over the limitations of a standard mobile scanner.

The Strobe 500 offers metal construction for durability as well as a hinged-cover design that allows both the front and back side glass to be quickly and easily cleaned ensuring only the best image quality. In addition, the built-in functionality of Visioneer's Acuity Image enhancing software removes skew, speckles and rotates images automatically. It will even fill in the holes on three-punched paper and improve low-contrast originals.

Easy-To-Use and Flexible

Whether scanning ID cards, invoices or legal contracts, the Strobe 500 can handle it all. With a convenient paper guide, a thick paper path and front-access scanning you'll forget you are using a mobile scanner. The Strobe 500 can even handle documents up to 36 inches long so even those hefty receipts can be scanned with no problem. This versatile scanner also comes with Visioneer's DriverPLUS TWAIN™ driver so you can easily and seamlessly connect the scanner to all your preferred scanning applications.

Scanning in One Touch

When powered by Visioneer® OneTouch® scanning software, the scanner allows users to scan to the "destination" of their choice by simply pressing either the simplex or duplex button right on the front of the scanner. This quick process eliminates multiple steps usually required to save scanned documents in popular file formats. Visioneer OneTouch allows you to create 6 completely user-configurable presets thereby enabling your documents to be scanned with the correct settings for resolution, color, cropping, file format and then delivered to virtually any application, folder or device — all at the touch of a button.

Visioneer Strobe™ 500 Software Package

Visioneer® OneTouch

OneTouch is an easy-to-use utility that connects the Strobe 500 with a powerful set of scanner settings to greatly improve the efficiency of your workflow — so that with one touch the document is scanned automatically to email, Microsoft® Word, your printer, a file folder, or to a host of other cloud destinations.

Acuity

Acuity enables your scanner to instantly improve the visual clarity of every document that you scan. Using advanced algorithms and dynamic thresholding Acuity will intelligently correct documents containing imperfections, improve quality of scanned images for archiving, increase OCR accuracy, and save time.

DriverPLUS

DriverPLUS is a new generation of driver technology that is based on TWAIN™ 2.2 specifications that provides advanced features and greater reliability for both users and system integrators. DriverPLUS combines the features of advanced 32- and 64-bit native Windows®-based TWAIN and WIA drivers, plus new Acuity optimization software and a sophisticated user interface.

Nuance®

OmniPage® Pro

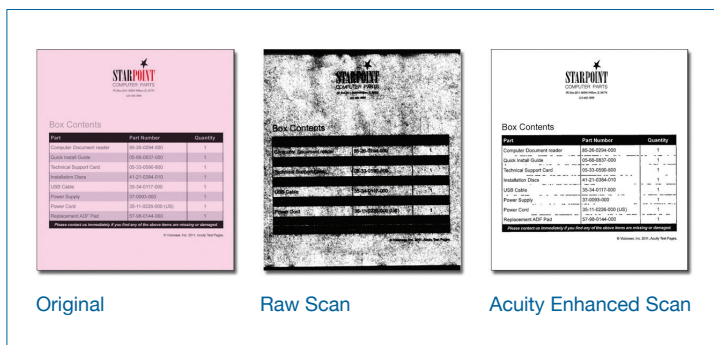

OmniPage Pro provides a precise OCR and layout retention solution, quickly turning scanned documents into editable, formatted text. The text can then be used in virtually any word processing, desktop publishing or web publishing program.

PaperPort®

Millions of professionals rely on PaperPort to save time and money by transforming paper documents into searchable digital documents. PaperPort combines the efficiency of document management, the convenience of superbly scanned documents and the power of creating PDF files, to bring a new level of operational proficiency to your organization.

PDF Converter

The smarter PDF software choice for businesses. Combining powerful functionality, superior Microsoft Office® support, built-in intelligence, DMS integration, and intuitive ease of use, Nuance PDF Converter provides everything you need to create, convert, edit, assemble, and securely share PDF files for increased productivity, enhanced collaboration, and improved compliance.
