Cases/Layer	12

Product Description

The iPad is incredibly popular with educators around the world. Unfortunately they are far too easily broken or stolen. The Kensington SafeGrip Security Case adds a much needed ClickSafe® Security Anchor to allow you to secure your iPad investment from theft. Simply add a ClickSafe lock (sold separately), loop the lock around a table leg or anchor and your iPad investment is secure. Besides protection from thieves, the SafeGrip can also protect an iPad from the kind of abuse only a K-6 grader can dish out. SafeGrip wraps the iPad in a tough, padded case built to fend off drops, dings and bumps. The SafeGrip features a burly handle made for kid-sized hands that prevent drops in the first place while even doubling as a handy two-position stand for viewing and typing. The iPad screen can really take a beating in the K-6 environment, so the SafeGrip provides complete screen protection against scratches and smudges. There's also a stylus holder since a stylus can further reduce screen smudges. And the SafeGrip features a personalization slot, to prevent classroom skirmishes over which iPad belongs to which student. Don't risk losing a minute of valuable time (or a cent of your budget!) due to a stolen or broken iPad. Protect your investment with the iPad case made to protect against theft and damage in the K-6 shared-use environment.

Features

- Built-in ClickSafe Anchor secures to a ClickSafe lock (sold separately) in just one click
- iPad not included
- Tough, padded protection against drops and bumps
- Built to survive the K-6, shared-use environment
- Protects screen against scratches and smudges
- Handle is sized for kids and prevents drops
