

Store 'n' Go® Mini Metal USB Drive

The perfect complement to your USB 3.0 equipped MacBook or Ultrabook, the Verbatim Mini Metal USB 3.0 drive provides fast, reliable data storage in a sleek brushed aluminum package. The Mini metal USB drive operates on a USB 3.0 interface that delivers transfer rates of up to 10X that of USB 2.0 interfaces, yet is fully compatible with all USB ports.

The Mini Metal USB drive features a retractable USB connector and lanyard, and is the smallest USB 3.0 drive available in the market today - perfect for users on the go.

Key Features

USB 3.0 Interface

Maximizes data transfer when used in USB 3.0 ports, making it easy to transfer multiple files at once, or larger files with less waiting. Fully compatible with all USB ports.

Smart Design

Perfect for users on the go, the Mini Metal USB features a retractable design that shields the USB connector when in transit - helping ensure your data remains safe and secure. In addition, the Mini Metal USB features a lanyard for easy transport.

Universal Compatibility

The Verbatim Mini Metal USB is compatible with both Mac OS and Windows platforms.

Brushed Aluminum Exterior

With clean lines, smooth curves and a brushed aluminum exterior, we've designed the Mini Metal USB to perfectly complement the sleek, modern look of your MacBook or Ultrabook.

Bonus Lanyard Included

Bonus lanyard included for easy transport on your keyring

Lifetime Warranty

Verbatim manufactures our products to meet our strict quality standards. We stand behind the quality of our products - and our warranty proves it.
