

Macbook Air Accessories Kit - MDP to VGA / HDMI and USB 3.0 Gigabit Ethernet Adapter

Product ID: MACAMDPGBK

The MACAMDPGBK MacBook Air connectivity kit is an add-on accessory bundle that extends the capability of your port-limited MacBook. The kit contains 3 StarTech.com adapter products to connect your MacBook Air or similarly configured MacBook Pro to an external HDMI or VGA display, and a wired Gigabit Ethernet network as needed.

Though extremely portable, ultra-thin laptops sometimes lack the necessary ports to connect to various displays/projectors and wired networks when traveling between boardrooms, trade-shows, hotels and conference centers. We designed this bundle of MacBook accessories to provide the missing connections most commonly desired among mobile users to prepare you for almost anything.
