Kevlar® reinforced cable for extreme durability

High quality neodymium speakers for high definition audio quality

Ultra sonic welded ergonomic call control unit is strong and compact\*

Call control allows for easy answer/end, mute, volume up and down\*

Unique magnetic holder for onetouch use of call control unit\*

\*Only available for USB variants

A close-up, black and white photograph of a speaker housing. The housing is circular with a mesh grille. In the center of the grille is a dark oval with a white logo consisting of two stylized, overlapping 'S' shapes. The housing is attached to a larger, curved metal part, likely the earcup of a headset. The lighting is dramatic, highlighting the textures of the mesh and the brushed metal.

90 degree turnable speaker-housings for space saving storage and transport

Brushed aluminum parts for strong and lightweight design

Stainless steel hinges on speaker joints for maximum strength

# Hearing is believing

The Century™ series of headsets is designed for quality conscious enterprises requiring the best in sound quality and design for their demanding professional users

Optimized for Microsoft® Lync™

- Premium wired USB headsets optimized for Microsoft Lync.
- Sennheiser voice clarity and ultra-noise canceling microphone improve speech intelligibility in noisy environments.
- Deliver great functionality and convenience with integrated call-control unit. The dual-sided SC 660 USB ML provides stereo sound - great for listening to music.
- Designed for quality-conscious enterprises using Microsoft Lync and requiring high definition voice clarity, call handling flexibility, extreme durability and all-day wearing comfort.

## Experience Sennheiser

Perfection is always relative: Users have different expectations from their headsets depending on their needs. For professional users, that need is to communicate as effectively as possible.

With Sennheiser's range of headsets, the combination of exceptional HD sound, quality design and build – and a focus on real life usability – give the best performance possible in busy offices, contact centers and Unified Communications environments.

Sennheiser is one of the world's leading manufacturers of headphones, microphones, wireless transmission systems and high-quality headsets for both business and entertainment.

Drawing on the electro acoustics expertise of Sennheiser and the leading hearing healthcare specialist William Demant, Sennheiser's wireless and wired headsets for mobile phones, contact centers, offices and Unified Communications professionals are the result of Sennheiser's leadership in sound quality, design, comfort and hearing protection.
