FUTURE PROOF YOUR SECURE OUT-OF-BAND MANAGEMENT SOLUTION WITH SCALABILITY AND **FLEXIBILITY**

The Lantronix® SLC™ 8000 advanced console manager is the industry's first modular console server that provides secure remote access to IT equipment, while reducing deployment costs and time.

Modular Design

The modular design of SLC 8000 allows users to keep the main unit and simply add or swap modules to expand the number of device ports, upgrade from a single power supply to dual, and easily introduce new serial interfaces such as USB to support a combination of existing and new IT equipment that are connected. This reduces the time required to develop and deploy new services, and this flexibility minimizes capital expenditures while offering easy scalability and upgrades.

Integrated Security

Protecting IT resources is a top priority. The SLC 8000 provides security features such as SSL and SSH for data encryption in addition to remote authentication for integration with other systems already in place. For added protection, the SLC 8000 also includes firewall features to reject connection attempts or block ports and has NIST-certified AES encryption.

SLC 8000 Highlights:

- Reduces downtime and increases efficiency with anytime and anywhere access to IT equipment
- Increases testing productivity as a DUT aggregator for automated tests and diagnostic data collection
- Reduces operating costs and security risks by eliminating the need for onsite interventions
- Enables "mix-and-match" with USB I/O modules
- Minimizes cable clutter with softwarereversible device port pins

- Integrates with vSLM™ central management solution
- Simplifies service deployments with the modular design's quick expansion and customization

Available I/O Configurations				
Model	Ports	Final Configuration		
Standard	8	1357		
Standard	16	1 3 5 7 9 11 13 15 2 4 6 8 10 12 14 16

Features and Specifications

Accessibility

- In-Band (10/100/1000 Base Ethernet) Dual Ethernet ports with bonding Out-of-Band (Local terminal, Internal Modem or USB Modem)

- Security and Authentication
 Secure Shell (SSH v1, v2, Public Key)
 Secure Sockets Layer (SSL v3, TLS v1)
 Packet filtering (firewall)

 - Per port user permissions

 - Configurable user rights and custom groups Remote authentication: LDAP, RADIUS, Kerberos, TACACS+, Active Directory, NIS Local username/password

> Serial Device Port Access

- Software reversible device port pins
- Telnet/SSH to SLC command line
 Telnet/SSH/RAW-TCP direct to IP address and port number
- Web Telnet/SSH Multiple concurrent Telnet/SSH sessions
- Simultaneous access on the same port No inadvertent "breaks" Sun break-safe
- Customizable multi-level user menus
- USB modem access
- Automatic port-initiated connections to network host or neighboring port
- Enable terminal login on any device port
- SD card and USB

Data Capture and Notification

- Port buffering—256 KB per port Port logging to local files, syslog, USB thumb drive, SD card, and NFS share
- NFS files (simultaneous)
- System event logs Console event notification via email Event string recognition (RegExp)

> Management

- Front panel keypad and LCD display for network setup Quick setup and configuration web interface (SSL)
- CLI setup script
- Command line interface (Telnet, SSH, Web Telnet/SSH or direct
- SNMP (MIB II) compatible—v1, v2, v3, custom MIB's Integrated power management support—Lantronix SLP® and Server Technology PDU
- Integrated support for Sensorsoft devices
 Diagnostics and port status counters

 Performance monitoring utility

 Packet generation utility
- - Network trace utility
 - Configuration audit log
- Local subnet search for other SLC's Maximum of 352 concurrent users and maximum 10 users per device port at 9600 baud rate (typical)

> Additional Protocols Supported

- DHCP and BOOTP for dynamic IP address assignment
- NTP for time synchronization

- FTP, TFTP, SFTP, SCP client for file transfers DNS for text-to-IP address name resolution SSH, SSL, Telnet and UDP, PPP with PAP/CHAP, NFS and CIFS for connections in and out of the SLC
- IPsec/VPN RIP and RIPv2

Interfaces

- Network: Dual 10/100/1000 Base-T RJ45 Ethernet Devices: 8, 16, 32, 48 RS-232 (RJ45), 300 to 230400 bps Console: RS-232 (RJ45), 300 to 230400 bps USB 2.0 High Speed, Full Speed, Low Speed SD card slot: SD and SDHC

Operating SystemEmbedded Linux

- Power Requirements
 AC model input (single or dual): 100-240 VAC, 50 to 60 Hz
 DC model input (dual): -20 to -72 VDC

 - Power consumption: Less than 30W

> Certifications

FCC Part 15, CE (EN55022, EN55024, EN60950), CSA, VCCI, UL/CUL, C-Tick, CB Scheme, NIST-certified implementation of AES (Advanced Encryption Standards) as specified by FIPS-197, IPv6 Ready, FIPS 140-2 (pending)

Central Management

Compatible with Lantronix' vSLM central management software

Environmental

- Operating: 0 to 50° C (32 to 122° F), 30 to 90%RH, non-condensing Storage: -20 to 80° C (-4 to 176° F), 10 to 90%RH, non-condensing Heat flow rate: 68 BTU per hour

> Physical

Front-mid-rear mounting brackets
Dimensions (Lx W x H): 30.5 x 43.8 x 4.4 cm (12 x 17.25 x 1.75 in), 1U
Weight: 11.1 lbs. maximum, depending on option
Shipping weight: 15.1 lbs. maximum, depending on option

Warranty

3 year limited warranty
