

Safe Fit™ Protective Case for iPad Air 2 (Black)

THZ611GL

Overview

Everyday bumps and drops are no problem for the Targus Safe Fit Protective Case. With Military grade protection from drops up to 4 ft. and innovative features like shock absorbing protective corners that flex for a perfect fit, this case keeps your iPad Air free of minor scratches and dings. The non-slip grip lining lets you enjoy an infinite array of viewing angles, or with just one fold gives you an ergonomic typing angle. The unique design gives you easy access to device controls and ports; while camera and sensor cutouts let you get the shot—even when the case is on. All together, these features make the Targus Safe Fit case the best fit for your iPad Air 2.

Features

- Safe Fit case passes rigorous MIL-STD 810G testing to ensure it can protect your iPad Air 2 from drops up to 4 ft.. Shock-absorbing, protective corners flex to fit iPad Air 2 or iPad Air and hold it securely.
- Convenient sleep/wake feature automatically puts device to sleep when the case is closed and wakes the device when you open it for optimal battery life and minimal downtime.
- Smooth grip, non-slip interior holds firm at any angle for stable viewing
- Easy access to camera, controls and ports. Listen to music, connect your charger, or take a quick photo without removing the case. Lightweight, wipe-clean exterior with elastic closure and rugged silicone tablet cradle for everyday protection.
