

# 15.6" CityGear II Backpack

TCG665

## Overview

The Targus 15.6" CityGear II Backpack is a streamlined, protective backpack that's thoroughly professional and made for travel. Featuring the patented DOME Shock Dispersion System, it protects your laptop screen from damage due to shocks and bumps—up to 5x more protection for today's thinner devices. Two main compartments—one that is exclusively for your laptop, another for your tablet, other devices, and accessories—make this backpack checkpoint friendly. Just unzip to lay the bag flat for a quick, secure trip through airport screenings.

## Features

- Patented DOME Shock Dispersion provides 5X more protection for your laptop screen. Softly lined, dedicated tablet compartment deflects scratches and dings.
- TSA Checkpoint Friendly; unzips to lay flat for quick trips through airport screening. Compact yet spacious design fits in the overhead compartment or slides under the seat on the airplane.
- Front zipped workstation organizes other devices and supplies, additional stash pocket keeps keys and small items handy. Convenient side pockets for water bottle and charger.
- Comfortable padded handle for hand carrying. Contoured, padded shoulder straps and breathable mesh back panels keep you cool and comfortable. Removable and adjustable sternum strap balances heavy loads. Lightweight, weather resistant materials plus a reinforced bottom panel for heavy use.
