INFORMATION

The Sova represents a new chapter in comfortable gaming by bridging the gap between PC and TV. Desktop, monitor, mouse and keyboard – that's the standard formula for PC gaming. It's tried and tested, and hasn't changed much through the years. When gamers think of PC gaming away from their desktop, they think of making compromises. But with the Sova, that's not the case. The Sova completes the picture by taking what you already have and providing you with a super easy PC solution for your couch. It's the only piece of the puzzle missing; you already have everything else you need to make it happen. Lean back on your couch, grab your Sova and enjoy gaming on your TV screen.

DOCKING RAIL + MOUSE BUNGEE

Securely supports mouse bungee and custom clip-on parts. For those of you who strive to be unique can design your own signature parts.

4 METRE BREAK-AWAY CABLE

Perfectly suited to comfortable gaming on the couch. The cable can also be easily unplugged.

ULTRA COMFORTABLE

The weight of the Sova in your lap and the high-quality materials it's made of are all designed for the perfect gaming board feel.

FEATURES

- Superior design, comfortable even after long periods of use
- Indestructible build for the wear and tear of comfortable gaming
