Model	Acer KG271U bmiippx 27-inch WQHD Monitor
MSRP	$279.99
On-Shelf Date	October 22, 2017

The Gate of Smooth Gaming

In competitive gaming, every frame matters. Introducing Acer's KG271U gaming monitor - the WQHD resolution monitor that can keep up with your game play. Through AMD FreeSync technology, the game's frame rate is determined by your graphics card, not the fixed refresh rate of the monitor, giving you a serious competitive edge. Plus, users can enjoy comfortable viewing experience while gaming via flicker-less, low dimming and ComfyView display. The design saves space on your desk and lets you place multiple monitors side by side to build a seamless big-screen display.

Key Features

Web Description

Acer KG271U bmiippx 27" WQHD (2560 x 1440) TN Monitor with AMD FREESYNC Technology (2 x Display & 2 x HDMI Ports)

Features

Quality Visuals

The KG271U 27" monitor with 2560 x 1440 WQHD resolution in a 16:9 aspect ratio presents stunning, high quality images with excellent detail. The zero-frame design does away with the thick frames found on conventional monitors freeing up precious screen space so you have more to look at from edge to edge.

AMD FREESYNC TECHNOLOGY

Say "goodbye" to stuttering and tearing. With AMD FREESYNC, the monitor's frames are synced with the graphics card's frames, which eliminates screen tearing and provide the smoothest gaming experience.

Kind to your eyes

Stay in the fight for hours with Acer EyeProtect's Flicker-less, Blue Light Filter, ComfyView and Low-dimming technology. These features take into consideration prolonged usage and minimizes eye-strain from long gaming sessions.

Crystal Clear Viewing

Focus more sharply on your tasks with the superior 100,000,000:1 contrast ratio and ultra-quick response of this WQHD monitor. Enjoy the brightest whites and deepest blacks for exceptional viewing definition to all your content.

Responsive!!

Fast response time of 1ms GTG (Gray to Gray) enhanced gamers' in-game experience. No matter the fast-moving action or any dramatic transitions will be all rendered smoothly without the annoying effects of smearing or ghosting through Acer KG series.

Helping the Environment

The KG271U display is designed to reduce the impact on the planet. The EcoDisplay design means it has ENERGY STAR 6.0 certification for being very energy-efficient, and they don't contain mercury. These displays and their packaging are also designed to be easily recycled.
