V SEVEN

Protecting Your Privacy

V7 ScreenSentry privacy filters help protect your visual data from prying eyes by reducing the viewing angle for your display. Your view will remain perfectly clear while anyone viewing from the sides will only see a darken screen. All your sensitive data is hidden unless viewing from a straight-ahead.

ScreenSentry filters combine multiple layers of advanced ultra-thin materials that combine microlouver technology with anti-blue light, anti-glare, fingerprint, and dust resistant materials into the filter's structure. The final product allows light to pass through when viewing directly from the front. Indirect angles block the light displaying a darkened screen.

ScreenSentry filters are designed to easily attach and are available in a variety of sizes to fit most PC laptop and desktop displays. Backed by a two-year warranty.

Safeguard your confidential data from visual hackers by using a privacy filter on your laptop or monitor.

64% **OF IT MANAGERS**
worry about visual hacking.[1]

55% **OF BUSINESS MANAGERS**
are not protecting their screens from prying eyes.[1]

65% **OF OFFICE WORKERS**
engage in remote work
increasing the risk of data breaches in public spaces, making privacy measures essential.[1]

V SEVEN

Protect confidential data
from onlookers and visual hackers.

Protects Sensitive Data

Protects sensitive data from visual hackers with a +/- 30 degree viewing angle restriction.

Easy Application

Base models include easy-to-apply adhesive strips and mounting tabs – Select models feature magnetic attachment mounting.

Reversible Glossy or Matte Finish

Provides sharp image quality in any lighting environment. Select either the high-clarity glossy-finish or the anti-glare matte-finish.

Blue Light Reduction

Minimizes eye strain and fatigue associated with prolonged screen exposure. Reduces eye strain and blue light by 50%.

Antimicrobial Protection

Provides added protection against germs and minimizes glare.

TAA-Compliant

Meets US federal government purchasing requirements.
