

Standing Desk Converter

Ergonomic design helps keep your back and neck relaxed!

TWO TIER LAYER

The two-tier design gives you an upper display surface for your monitor, and a spacious lower removable keyboard and mouse deck that raises/lowers in sync with the top surface keeping your shoulders and neck relaxed. Weight capacity for the entire desk is 33 lbs.

EASY TO SIT/STAND

Our sit and stand desk has a durable steel base and a pneumatic air cylinder for smooth raising and lowering. The height adjustable desk is extremely easy to operate even with heavy loads such as dual monitors. It allows for ease of use when raising/lowering multiple times a day.

EASY TO INSTALL AND OPERATE

These stands are simple and easy to operate. There are no pneumatic components to install. Simply attach the keyboard tray and you are ready to start standing.

HEIGHT ADJUSTABLE

Rotary knob locks ensures a secure position at any height settings.

Sturdy steel frame

Steel frame holds weights up to 33lbs. Gas spring lift provides smooth and easy height adjustment.

Flexible height adjustment

Rotary knob locks ensures a secure position at any height settings.

Spacious work surface

Ergonomic design. Allows plenty of space for your laptop, display, keyboard, and plenty of paperwork.
