

HP 125 Wired Keyboard (AY2Y7AA)

Overview

Every Day Productivity

Think how much you use your keyboard. That's why we've taken the time to design a keyboard that is comfortable to use so you can work productively every day - and all day if necessary.

Designed for Comfort

The three zone, full size HP 125 Wired Keyboard includes 0-6 degree adjustable feet so you'll be able to type comfortably. Plus, an LED indicator for the Caps and Number easily reminds you when these features are active.

Easy Cleaning

Use your keyboard every day and it will accumulate dirt and grime. Over time, this can affect how it performs. Because it was specifically designed to withstand every day cleaning with disinfecting wipes,[1] this is one keyboard that's a snap to keep clean.

Plug and Play Connectivity

Connecting some peripheral devices can be a complex and time consuming task. Who needs that? With easy plug and play USB connectivity, you can get your keyboard connected quickly so you can get on with your work day.

Responsibly Made

You should feel good about the products you buy and use. Rest assured, this keyboard is responsibly made with at least 75% of the plastics comprised of recycled materials[2] and the printed circuit board is low halogen.[3]

Features

The Key to AI

With one key, access the power of Microsoft Copilot, an AI powered assistant that helps you simplify tasks, collaborate, and work smarter. Find answers from across the web, personalize your apps, or get creative with text, photos, and videos.^[4]
