## Features

### High Compatibility

The CT Mod Edition (CTM) supports both air and liquid cooling solutions. Offering versatile cooling options to effectively guide airflow and dissipate heat, making it ideal for multipurpose system builds.

### GPU Support

Featuring four full-height PCI-E slots, it supports GPUs up to 260mm with front fans or 240mm with an AIO cooler, offering diverse system configurations.

### Dual Thermal Solutions

Features two 120 mm front fans and one 92 mm rear fan, with support for up to a 240 mm AIO cooler, enhancing cooling performance with either air or liquid cooling solutions.

providing higher flexibility and scalability in system configuration.

### Upgraded Airflow Optimization

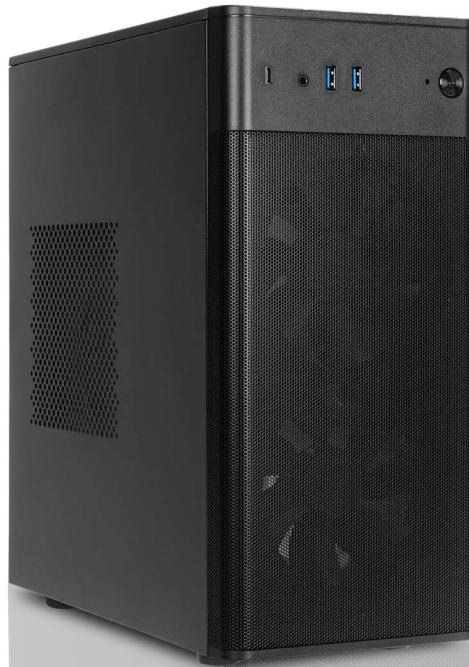

Integrating the mesh panel with air ducts guides airflow, greatly optimizes airflow and achieves excellent thermal dissipation.

### Easy Access Front I/O Optional CTM-A Edition

The CTM-A (ARGB) Edition includes ARGB fans that can be easily controlled via an ARGB controller/button. Its blackened interior maintains a cleaner appearance and conceals cables.
