

HP Z2 Mini G1a Workstation Desktop PC Wolf Pro Security Edition (C3XE0UT)

Overview

Mini workstation. Transformative AI performance.

Unlock workflows previously not possible on a mini workstation. Transformative performance is packed into a compact Next Gen AI PC to take on complex AI accelerated projects like never before—simultaneously 3D design and render graphics-intensive projects or work locally with LLMs.

Next level performance to defy what's possible.

Tackle massive, new workflows locally on a mini workstation with an AMD Ryzen™ AI Max PRO[1] processor, with desktop CPU cores, discrete-like integrated graphics, unified memory and the ability to assign memory to the GPU,[2] handle graphics-heavy projects locally.

Next Gen AI PC mobile workstation.

Hardware AI accelerators deliver power to propel advanced workloads. Offload and run productivity tasks locally on up to 50 TOPS NPU while also tackling new and more demanding AI enhanced professional workflows.[4]

Slim and sleek. Fits anywhere.

Create an ideal set-up with the compact Z2 Mini. Set it on a desk, mount it behind a monitor, or attach it under a desk. With an internal power supply, this PC cleanly fits in a rack, and its small size allows for 5 units across a 4U rack.[3]

Designed with the planet in mind.

At HP, we care about the impact our products have on our people, communities, and planet. That's why this device is EPEAT® Gold[5] with Climate+ and the outer box packaging is 100% sustainably sourced.

Features

HP recommends Windows 11 Pro for business

Work anywhere without compromising on performance with Windows 11 and HP collaboration, security, and connectivity technology. Summarize and rewrite content, get relevant content recommendations, and stay organized with Microsoft Copilot.^[6]

AMD® Ryzen™ processor

Bring your ideas to life quickly and effectively with the latest AMD® Ryzen™ processors.

Security is your top priority

The HP Wolf Pro Security Edition provides preconfigured enterprise-level PC protection for small and medium sized businesses.

Rackable Design

Ideally designed to fit in a rack, you can maximize density with support for 5 Minis in 4U, now without external power bricks.^[3]

Multi-Display Support

See all your windows in perfect detail with support for up to 4 displays at 4K resolution.^[7]

Network Connectivity

Connect and collaborate quickly with 10Gb Ethernet interface.

[1] Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD's numbering is not a measurement of clock speed. Features and software that require a NPU may require software purchase, subscription or enablement by a software or platform provider, and third-party software may have specific configuration or compatibility requirements. Performance varies by use, configuration, and other factors.

[2] Memory is an optional feature that must be configured at purchase.

[3] Rack mounting hardware sold separately.

[4] Features and software that require a NPU may require software purchase, subscription or enablement by a software or platform provider, and third-party software may have specific configuration or compatibility requirements. Performance varies by use, configuration, and other factors.

[5] Applies to HP PCs, Workstations and Displays manufactured after January 2019. Based on most Gold and Silver EPEAT® registrations by meeting all required criteria and achieving 50-74% of the optional points for EPEAT® Silver and 75-100% of the optional points for EPEAT® Gold according to IEEE 1680.1-2018 EPEAT®. Status varies by country. Visit www.epeat.net for more information.

[6] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 11 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>. Microsoft Copilot requires Windows 11. Some features require an NPU. Timing and availability will be dependent on Microsoft and varies by market and device. Requires

Microsoft account to log in. Where Copilot is not available, the Copilot key will lead to the Bing search engine. See <http://aka.ms/WindowsAIFeatures>.

[7] Support for up to 7 displays requires Intel® HD graphics and a discrete graphics card.
